PRESS RELEASE

DATE: June 12, 2009

FOR IMMEDIATE RELEASE

Westminster Branch Library Reopens

The Westminster Branch Library will reopen on Monday, June 15 at 9 AM, in time for the launch of the 2009 summer reading program.

The branch has been closed for a month for renovation and remodeling. Included in the work completed to date are: complete carpet installation, new shelving, service desk remodeling, and painting. New features included as part of the remodeling are smaller, more functional service desks to allow space for self-service options, programming, attractive displays, an expanded area for computers, and a new, more user-friendly DVD dispenser.

As exciting as what has already been accomplished is, work will continue over the next few months. Improvements coming during the coming months include a new and exciting children's storytime area and a brighter, more inviting meeting room. In the future, major improvements are planned for the Mary Lou Dewey Park in front of the library.
